TECHNICAL SKILLS

Programming: Python, C

Frameworks: Django, HTML, CSS

Databases: MySQL, SQLite

Developer Tools: Git, GitHub

Core Skills: Data Structures, Problem Solving, Teamwork, Communication

EDUCATION

NITRA Technical Campus

Bachelor of Technology in Computer Science & Engineering

2023–2027

Ghaziabad, UP

Govt. Boys Sr. Sec. School, Vasundhara Enclave

Intermediate – 80%

2021– 2023

Delhi

Govt. Boys Sr. Sec. School, Dallupura

Matriculation – 90%

2019– 2021

Delhi

EXPERIENCE

Smart India Hackathon

September 2025

- Selected as a member of a five-member team for the internal Smart India Hackathon.
- Designed and contributed to an **Automated Attendance and Analytics System for Colleges** (Statement #25016).
- Collaborated with teammates to automate attendance tracking and generate analytics for academic administration.
- Built the frontend using HTML, CSS and JavaScript.

PROJECT

Job Board – Recruitment and Job Listing Platform

- Developed a full-stack recruitment platform using Django, Python, HTML and CSS.
- Implemented secure authentication and separate dashboards for employers and job seekers.
- Designed relational database models for jobs, applications and user profiles.
- Integrated keyword, category and location-based search with filtering functionality.
- Managed applications efficiently using Django ORM and the built-in Admin Panel.

Tech Stack: Python, Django, HTML, CSS, SQLite

ACHIEVEMENTS

- Solved 100+ problems on LeetCode to strengthen Data Structures and Algorithms.
- Secured 2nd highest marks in Class 10 among all students in school.

CERTIFICATIONS

- Complete Interview Preparation – Self-Paced (Python), GeeksforGeeks
- Django Development Certificate – Tutedude
